#stop365

International Day
for the Elimination of
Violence against Women

#stop365

Once is enough

But we fight violence 365 days a year, in all its forms.

What is violence

Violence harms, nullifies or destroys the will of the person subjected to it.

Types of violence

- Physical
- Psychological and verbal
- Sexual
- Economic
- Domestic (ill-treatment within the walls of the home)
- Stalking
- Mobbing

**YOU ARE NOT
THE ONLY ONE
AND YOU ARE NOT
ALONE**

#Stop365

Violence

makes no distinction

It occurs regardless of social class, religion, country of origin and culture.

We care about you.

In the Emergency Room (at the Hospital)

You will find staff who will welcome you and accompany you on a dedicated pathway.

We guarantee confidentiality

You will be accompanied in a reserved area to be visited in the shortest possible time and you can count on the assistance of all the necessary specialists.

You can take your children with you and we will take care of them too.

Cultural Mediation

Intercultural Mediation and LIS (Italian Sign Language) services are always available in our Hospital.
